Attn: Director: Re: New survey and 1994 TV Regulation.
I have written you earlier about helping intervene and
get better programs - theme, plot, suitable for all family and
mixed company (trashy talk, sex dominated scenery) no educational value =0, not suitable as "Baby sitters"
Babies to youthages, "eyes" see and get impressions (wrong ones)
with these programs - left alone with no adults to comment or
turn things off. Some are an insult to adults to be presented,
as acceptable to them intellectually. Pull their licenses.
Things for adults, Kids to babies see, should not be seen by adults.
Writers now have, even on PBS, turned the adult wisdom to a
Purple alligator, a computer for advice "Short Writer" etc
no adults are visible to many and Cartoon on networks
are wrong influences. Kids are the Master Minds and
Adults the mindless maid or man. Big Bird is a joke - Take it off
It has no instructional "Good Morale" mind challenging,
questioning why, - just desty green something in trash can.
I can detect words, sentences in real children that are from
TV programs and characters. If they give wrong attitude,
all the audiences across TV land will think that way! It impresses

The College level entry scores are lowered to find students to pass.
The " " typing speed tests are lower to pass lower WPM.
The High School Exam is on a 6th grade level and can't be passed
by the disadvantaged students academically and school provides
no classes for non-skilled High schoolers to have a job for low pay income"
children of affluent homes get better mentality, help at night in classes
will go to college, or trade, with high income, while low income, and
Welfare income children have no home help, no TV, Computer, etc
background to help them and no "special tutor at school to help
them understand and catchup to class and a better grade and life!
TV programs nearby here teach "Criminology" by 30 min Class.
COPS, LATW, etc detail, reinact the scenes for "authenticity".
(These are "ideas" for some) Eventually the Drugs by shooting
or other Robberies, Rape, Crimes will be done in Knoxville after New York.
Bodies are being found behind building, along road, unburied, (Thanks)

Programs "Sexist," fighting, etc should be removed! Go NE!
children wake up early and watch whatever, while parents sleep.
Adult Programs (Sit Com) Soap etc. children should not see -
(I will not watch) Even bring in British rejects! Even tried
to bring up ads to French style ones. I expect more nudity soon!
We are just now helping children with school lessons on a
local TV program! Volunteers should be for each child in 1-8 grade.
Sponsors say they do not have any control of their time slot
certainly no idea the "Program" the network will use in them.
PBS has some programs on writing, drawing, foreign language
speaking, for young children, pre school might understand.
(ie) Rosanne, Grace, Married with Children, Coach, are wrong
images for intellect, good housekeeping, or parenting ideas.
Children should not have to live that way! Teach "new" ways!
The dysfunctional "family" on Shirley should never happen.
The Parents need training in how to be a compassionate, loving,
training, guiding example, leaders, traveling journey that
produces a better crop of youth becoming adults than what
is shown as they grow up.
Back to Grand Mother maybe, to write the shows. These aren't
doing a good job! NYPD should have been off the air a year
ago if the few "see" in passing (The Naked Red head Cop) ~~off~~ NYPD -
License Lost! The quarrelling Murphy Brown can't speak
non bitter, quarrelsomeless, average Co worker image (Man wrote
female image)
I'm getting so tired of these "enlightenment" sessions.
The whole "family" picture is wrong - I hope it will be soon
replaced for better, happier, resourceful, cooperating,
successful scenes - how to get a higher goal in life! Honestly
(It promotes anger in me to watch) It does nothing
for a 2 parent couple, on 2nd shift, from fighting and
breaking hearts before all out abusiveness, or abandonment.
The "I'm OK" image has turned in to a "Fix Me" situation!
The Free Sex, Unmarried, AIDS, kids with no parents, or hope
freed's Crime, child without training, encouragement,
or a human to talk to, or ask advice of, is a reality
for a maladjusted adult if not a criminal. You do it FCC!
Maybe Congress will cut you out. A Mail Box can send out
Licenses - no Declaration. no verification they are Unamerican.

I wish I could type this in CAPS to you. Iball

Our Church Group complained to a network in the
50's or 60's about the Nervotic program and its bad
influence on the viewers! Most serious, the children.
They replied "they knew best how to present the story"
And wrote in a magazine of the time, "they produce just
to what the public will tolerate." (as if we were stupid)
So I have been yelling ever since and Comedy is not
that British "Comedy" of Horror sexuals. Take it Off! PBS
If they get heat money, charge them with negligence, too.
Pull the Plugs Most you license Especially Cable.
The filthy jokes called "Comedy" is not comedy!
TV doesn't produce any thing funny - or Capable of hints
of humor. A last act, Football Cruelty gets screaming delight.
TV has no smell of blood or sound when shot. No after
Effect on survivors' way of life or personal loss.

Kids in Puberty have no remorse for untought wrongs.
Their one anger avenged in Murder, Rape, Robbery is
all right to their solution when they were not taught
of their rights or self discipline or restraint by anyone.
Teachers lives are in danger at class even, with no
respect for authority or self. (Watch other Clint Eastwood movies.)

* Your streets are not safe at night from their very loss.
Training the young mind and heart is far more valuable
than a 2nd job. Lay a new theme on this generation.*

Happy Home, Well mannered, learning in school goal
oriented becoming in 20 years a respectable business
Person, not abusive and cruel to others. Comforts each other
during disappointments and sorrows, laughs at good things,
respects neighbors and friends, goes to Church, and has
a talent, piano lessons or baseball pitcher - It will sell!
With all the free sex, and prostitution for those nights out -
The Town Banker may be the father* of that kid who is shelling
in class, living on welfare with ambition in his genes, will be
the next criminal on the block while his half brother goes to jail.
"He" deserves help with his studies and re-directing his life!!

Broadcasters want Cheap Cartoons and with these unrealistic props, Wisdom and talents stage 12 heroes.
I noticed PBS has a story book reading of Realistic
Every day life or "long ago" setting. Not overegotistical
or abundant savagery. Problem solving.
But "Aladdin" is flying on a rug and outwitting giants,
with a monkey. Very real, Hero worship, - fruits force wins
or more clever mind? A wise talking monkey! Movie?
Who can settle down and learn a BC or States, Capitals and
Rivers? Who needs that stuff when you need Million Dollar
Ball players, all physical to a growing boy.
Or Chuck somebody is a Human Bomb Machine - not real.
So you get a savagely trained machine that blows up buildings.
It is time you and Education Committee joined forces.
Kids see all of the TV (those without guidance) Rich or poor!
Kids who have selective watching, also have a program for life
outlined to follow.
Your selection of programming should be "Considerate of all Kids."
"Protector of the innocent" those who do not have a Protector
at home.
I was visiting a family - Kids quietly watching "HBO. Sex show on Sunday
(I would never watch) - Her father said Quietly, "Tomorrow that is
Cancelled" - off the list I pay for - Cable is worse than networks.
Some Broadcasters claim no responsibility for any restraint -
Porno is fine with them! Some one must be there to speak for us.
As a style or habit is seen on TV or movie - it becomes O.K. or,
the new way of life, not later. The Baby to youth see all TV programs.
The welfare, low income types should have TV programs on how
to clean a house, hygienically clean, cook a nutritional meal,
Dress to get a job. There is no other school for them.
They can't get a job and stay on welfare - not qualified for a job.
Our PBS Teacher a Literacy Course for adult HED. Mostly
math, Grammar, Reading and memory choice answers of course.
You should help with the rest of the person. 40 years too late!
I charged you with overseeing the Program years ago!

FCC:

You know all this about the programming -
I'm just doing a survey, as you think, but wasting your speech -

Fox TV is the worst of all for undesirable programs -

We even have a Hercules & a Saint from the dead now fencing,
(Killing & I do not watch) - Ch 6 - except Prime news, Good Morning,
and local news. Maybe CBS I can't recall, doesn't interest me.

Angassing - A show of a girl (looked 12 or 14) in tattered short-
shorts with butt end up to an audience (many) men all ages clapping,
yelling (a true-to-life "Daisy Dole" costume) I do not know channel #,
that may have been Fox -

I speak for many who want it stopped, but say "they can't make
a difference".

I think whoever had the Clout to impose your duty on you.

I never see a child "making" anything except Cooking in an advert.

Not a doll dress, or bird house, or taking pears or playing chess,

or cooking something for supper or doing anything to build

a brain, learn a talent, go fishing with Dad or Granddad or to

be instructed in value in any way. Never grow a flower or tomato.

Do they take voice, sing, act in a play at school, Dance on Saturday?

What would your Broadcaster do for more Educational than building
self esteem through creating their own talent? Character!

Some superficial Cartoon that depletes real ability and creativity.

Horning out at the Fast Food shoppe is a road to sin, on crime.

"Sin" is rape, or being free to raise a baby alone emotionally, but with the

monetary and physical wisdom help of parents to raise it for her.

as well as the "sin" of boy who caused such problems on others with no

assistance is his helping, or going on to crime, Robbery, Dope, Killing

low or no pay jobs, someone feeding him at age 15, acting adult,

foresight is what keeps that meeting from happening! Maturity!

Even being a Candy Stripper at Hospital would have avoided that problem.

Adult and Maturity differ - maturity would not have had a baby.

The PBS groups seem to be journalists or Detectives but no adult

Bosses or advisors - Some ideas are foolhardy in real life. Lack judgement.

There was a teen age sewing class one summer on PBS, and a

regular adult sewing, Handicraft sewing class weekly, year around.

"Show" the kids with no goals, ideas, a future, as you show NY PD. No!

Help the FCC improve television programming for your children.

Make your voice heard:

there are many worthwhile
programs on television.
But I am progressively becoming
more alarmed at the

violence - sex, "Bathhouse
humor" - single theme
(sex, seduction) shows.

Something must be
done! Freedom of speech
doesn't mean we must say
whatever we think.

JUNE.....DAD'S TURN!

FCC MAIL ROOM

Foulklore:.... For the first time in eleven issues, this newsletter is late! Up to now, I've mailed each issue by the first of the month. I do have a good excuse, however, I spent last weekend in Los Angeles visiting my *father*..... We celebrated **birthday #79!**, and *father's* day in advance.

Last month we honored mothers, and since June is the month of *Father's* Day, it's appropriate to give Dad a turn. In May's newsletter, I suggested that the biggest problem in America is the ***breakdown of the family***, caused by the absence of a strong matriarchal role model and the degrading of the traditional patriarchal figure, in the media.

Today, it's difficult to remember the traditional *father*. Due to the current feminist climate, the masculine role in society, and in the family, has been diminished. In the past, the *father* was considered a pillar of the family, fulfilling the role of provider, protector, source of stability and strength, as well as being a family liaison with society at large.

Today, we have a new image of *fathers* in the media. It's startling for me to watch current television sitcoms and witness the new role that men have been given. When compared to the previous, traditional "Father Knows Best" and "The Walton's" *father* images, there is represented a shockingly diminished likeness. The men (*fathers*) in today's T.V. shows (except shows like the "Cosby Show"), are portrayed as mindless buffoons, who end up being the butt of most of the jokes. It seems to be the opposite of a what a *father* used to stand for. Instead of being worthy of respect, the modern "media male" is a joke, and the object of ridicule.

My *father*, (and probably most of yours), was very different from the clowns we see on T.V. My dad lifted himself up by his own bootstraps, as an ambitious youth. As a young *father*, emerging from the depression, he worked nights and went to school days educating himself, until he climbed from "blue collar class" (pipefitter), to "professional class" (medical doctor). He taught me by his example that hard work and perseverance are the answer to most of our problems. I'll always remember my *father's* favorite saying as I was growing up: "the harder I work, the luckier I get". He taught me: that integrity and honesty, are the simplest ways to live your life; that falling down is no sin, until you stop getting back up again; that you can do anything you want to in life if you put out the effort; that it's simple to be successful, because you need only work a little harder than the next guy, and most "next guys" don't want to work that hard. He helped me to become what I am today, (and paid for much of it), but, he didn't do things for me that I could do for myself. My *father* understood the painful process of maturing. He taught me by letting me do for myself and grow in the process..... **Happy Father's Day, Dad!**

The Lion King.. "Lion King" is one of the biggest grossing movies of all time. "The Lion King" is a great story about the King of The Jungle, the *father* Lion and his son. The movie portrays the essence of patriarchal leadership values. I heard a film analyst on a talk show describe the reasons behind the "Lion King's" great appeal and success. The analyst said that the American people have been starved for a long time for a strong father figure story, and that "Lion King" satisfied that craving. The American film audience has voiced an opinion with their ticket dollars that they are tired of seeing *fathers* as media jokes, and long to admire the strength, responsibility, loyalty, courage, integrity and all the traditional attributes that *father's* used to have.

How to be Successful:.... Dr. Joyce Brothers, In this month's Reader's Digest, gives her dad credit for building her confidence and self-esteem when she was a little girl. He did this by listening, appreciating, and praising his daughter for her analytical thinking. A female magazine editor credits her *father* for giving her a love of literature. Each night her *father* would read to the children as they stretched out on the floor of their bedroom. *Father's* who spend time with their children give them self confidence, and courage. A woman engineer related that her *father* taught her that she could be anything she wanted to be.

Laughing at Life:... A *father* is a man who carries photographs in his wallet where he used to carry his money... Show me a man that is a good loser, and I'll show you a man who plays golf with his boss;....Be tolerant of those who disagree with you--After all, they have a right to their ridiculous opinions....; "Capital punishment is either an affront to humanity, or a potential parking place."-Larry Brown; "Never invest in anything that eats or needs repairing"-Billy Rose; "My parents put a live teddy bear in my crib."-Woody Allen; "The only time a woman really succeeds in changing a man is when he's a baby."-Natalie Wood

"I went to a fight the other night, and a hockey game broke out."? 5. "I wouldn't ever set out to hurt anybody deliberately unless it was, you know important- like a league game or something."?

I wish I'd said that.... "In Mexico we have word for sushi: bait", -Jose Simon; "The opposite of talking isn't listening, the opposite of talking is waiting."-Fran Lebowitz; "Doing a thing well, is often a waste of time."-Robert Byrne; "I am not young enough to know everything."-Oscar Wilde; "If you copy one author it's called plagiarism. If you copy many authors, it's called research"-My high school English teacher.

Recipe of the Month:.. You won't believe this month's recipe!.... It's amazingly simple, and fun. It's called **JOE'S WORLD FAMOUS BAG APPLE PIE**: Make a single pie crust. Slice 4-5 apples into the pie crust. Then mix one stick of butter, one cup of sugar, and one cup of flour. Crumble over the top of the fruit. Put the pie into a grocery bag (paper) and tie the bag off with a string. Bake one hour at 400. That's all there is, honest. (except add ice cream, Kieth). *Enjoy!*
